Word of the Day – Versatile – Transcript

Hi, it's Paul again. Welcome to Word of the Day Practicast. Today the word is versatile. The definition of versatile is to adapt to many different functions and activities. And that kind of sounds like animal that can swim, fly, and bury under the ground. So this is actually a good word if you're describing yourself to your employer

So you can say, "I'm a very versatile employee. I can speak three languages, program websites, and even work on the weekend."

Or you can say, "Wow, this iPhone is a very versatile gadget. It can act as your day planner, store your photos and contacts, read and do emails, make phone calls, and fit in your wallet.

So I hope you know what the meaning of versatile is today and you can find more information on practicus.co.kr where you can find the full transcript. Thank you and have a great day.
