

Word of the Day – **Thorough**

Transcript

Hi everyone! Today's word of the day is **thorough**. **Thorough** means to be complete without omissions. And it's a very positive and detailed oriented work. I can use it in this example.

“After reading through a thorough analysis of the characters in Macbeth I could better understand their roles, motives, and weaknesses.”

In this way, thorough is often paired with the word “analysis” so **thorough analysis**. It means complete. Another way I can use this can also be complete or utter in the word **thoroughly**.

“He was thoroughly excited to see his relatives as he had been away at war for so long and missed them. “

So we often used the word thoroughly excited, **thoroughly ecstatic**, to express utter excitement, utter happiness. So I hope you can use the word **thorough** or **thoroughly** in your everyday lives. Thank you for listening to Practicus. You'll find the script at Practicus.co.kr. Have a great day.
