Word of the Day – **random**

Transcript

Hi everyone. Today's word of day is **random**. **Random** is something that occurring at unpredictable times, it's sporadic, it's scattered. So it's unpredictable, there's no pattern. And I can use it in this way,

**“My friend randomly brought up stories of her childhood while she was drinking.”**

So in this way because she **randomly** did something, it was unexpected and difficult to follow in conversation. Next I can say it in this way,

**“Some people believe if they can figure out the pattern of the correct winning numbers in the lottery they can beat the system and win big. However, most people believe the numbers are chosen at random and impossible to predict.”**

So using the word **random** it means unpredictable. It's sporadic. It's difficult to predict and there's very little pattern. I hope you can use the word **random** in your everyday lives. Or the word **randomly**. And thank you for listening to word of the day. You can find the script at [Practicus.co.kr](http://Practicus.co.kr). Thank you and have a good day.
