Word of the Day - **Tact**

Transcript

Hi everyone. Today's word of the day is **tact**. **Tact** is to have poise, to be polite, to have a keen sense of how to deal with someone else in particularly in delicate situations. We can also see **tact** in the forms of **to be tactful** or **tactfully** saying something; to be full of **tact**. The opposite of this is **tactless**; having no **tact**. So **tact** is very much associated with being polite. And I can use it in this way,

“Shawn tactfully replied to the teacher’s question about his divorce by saying that he is not able to respond. However if it had been me in that situation, I would have abruptly said it was none of your business.”

In this case, Shawn is **tactful** and I would have been **tactless**. So I hope you can use the word **tact** or its variations of **tactful** and **tactless** in your everyday lives. You can find the script at Practicus.co.kr. Thank you and have a good day.
