1. 북한의 핵개발 이유

북한은 궁극적으로 한반도의 공산화를 원한다. 북한 핵은 결국 그 목적을 위한 것이다.

The ultimate goal of the North Korean regime is to communize the whole peninsula. North Korea's nuclear weapons are one of the tools to achieve that goal.

North Korea wants to take over South Korea and will threaten using nuclear weapons to do so.

북한핵은 자신의 체제를 유지하기 위한 것이다. 핵전쟁을 일으키거나 남한을 침략하기 위해 핵을 쏜다는 것은 비현실적이다.

North Korea develops nuclear weapons to maintain their regime. It's unrealistic that North Korea will wage a nuclear war against South Korea or try to invade.

Although North Korea has nuclear weapons, the chances of a nuclear war are very slim. North Korea only has nuclear weapons as an insurance policy to maintain their sovereignty.

2. 북한은 핵을 포기할 의사가 있는가

북한은 핵을 절대 포기하지 않을 것이다. 지금의 평화공세는 핵과 미사일 능력을 고도화하기 위한 시간끌기 용이다.

North Korea will never give up their nuclear weapons program. Its current overture toward the South is simply to buy enough time to make their nuclear and missile technologies more sophisticated.

There won't be an end to North Korea's nuclear program. Over time, the range of missiles will become greater and the yield of their bombs will become more powerful.

북한은 결국 미국으로부터 체제를 보장받기를 원하므로, 미국이 북한과 평화협정을 맺고 체제를 보장해준다면 핵을 포기할 수 있을 것이다.

Because what North Korea ultimately wants is the acceptance of its current regime by the U.S., North Korea will be ready to give up on developing nuclear weapons, if the U.S. make a peace treaty with North Korea and acknowledges the regime.

North Korea will halt its nuclear weapons program as long as a peace treaty is signed and the United States will accept North Korea as a sovereign nation.

3. 대화와 협력으로 비핵화를 달성할 수 있는가

핵을 가진 북한을 절대 용인할 수 없으며 핵동결은 받아들일 수 없다. 완전한 핵폐기약속을 할때까지 미국 일본과 보조를 맞춰 압박을 계속해야 한다.

We should not condone North Korea's nuclear weapons under any circumstances. Halting North Korea's current nuclear program is not enough. For complete, verifiable, and irreversible destruction of the nuclear program, we should continue putting pressure on North Korea in cooperation with the U.S. and Japan.

Some say that we can allow North Korea to keep its current stockpile of weapons. But we need to completely denuclearize the country and put constant pressure on North Korea to stop its nuclear program.

단계적으로 비핵화를 이룰 수 있다. 당장에 완전한 핵폐기를 전제조건으로 내세울 게 아니라 협상과 대화를 통해 점진적으로 비핵화로 나아가는 것이 현실적이다.

Denuclearization can be realized in stages. It's a more practical and realistic to approach the goal through dialogue and cooperation. This should be done before demanding the immediate and complete denuclearization of the North.

Instant denuclearization of North Korea would be a bridge too far. The process needs to be done step by step. That first step needs to start with dialog.
