정직이 최상의 방책이다. 사회생활에서도 자신의 생각을 솔직하게 얘기해야 의사소통이 잘 되고 뒤탈이 없는 법이다.

- Honesty is the best policy. With your acquaintances or even in the office, if you are honest with your thoughts and feelings, you can avoid further misunderstandings. Honesty will prevent you from having unnecessary conflicts.
- Sunlight is the best disinfectant. You should be honest and transparent with those you are close to. If you are upfront about how you feel, you can avoid confrontation. Being honest with others can avoid bad situations down the road.
- You should be open and truthful with the people you interact with on a daily basis. Being honest will set the stage with your friends, family and co-workers early on. From there it will be easier to communicate to the people around you.

솔직한 게 항상 좋은 건 아니다. 때로는 선의의 거짓말도 할 줄 알아야 한다. 매번 솔직하게 말하면 주변 사람에게 상처만 주기 쉽다.

- Honesty is not always the best policy. There are moments you have to tell little white lies. Being honest all the time with your thoughts and feelings may hurt the people you live and work with.
- Being 100% honest may get you in trouble. If you are so honest, it can offend the people close to you. It is good to lie sometimes to avoid hurting others.
- Bending the truth is sometimes necessary. You don't need to tell the whole truth all the time. Lying is a good way to maintain good social connections.
