주식투자는 위험하다. 낮은 수익률을 목표로 시작해도 욕심을 제어 못 하고 결국 손해를 보게 된다. 은행에 예금하거나 전문가가 보수적으로 자금을 관리하도록 하는 것이 더 좋다.

- Stock investment is a dangerous thing to do. You start with a reasonable level of return, but soon you lose control of your greed. Eventually, you end up losing money. The best way to save is put money in the bank or let professionals manage your money safely and conservatively.
- Investing in the stock market is risky. The initial profits are good, but soon your emotions take over and you become too greedy. In the end, you lose money. A safe bet is to put your money in a CD or a savings programs with a good interest rate. It is also advised to get a money manager to help you.
- You may lose your shirt in the stock market. Buying equities, especially in a volatile market, is not a wise investment choice. Stashing your money in the bank or hiring a financial adviser is a much safer option.

주식투자에 대해 너무 부정적인 필요는 없다. 주식투자에서 실패하는 것은 충분한 지식이 없기 때문이다. 욕심을 제어하는 것도 가능한 일이다. 잘 알고 하면 예금보다 높은 수익률을 안정적으로 거둘 수 있다.

- You don't have to be too negative about stock investment. Many people end up losing money because they don't have good knowledge about stocks. Controlling your greed isn't such a difficult thing to do. With good knowledge of the stock market, you can continue to earn higher returns than putting your money in the bank.
- Don't fear the stock market. As long as you do your research and don't get too greedy, you can make money. The higher the risk, the higher the reward.
- You shouldn't jump into the stock market head first. Take some time to do some background research about the companies you invest in. With the proper preparation and understanding, you can make money in the market. There is more potential to make money with stocks than putting it in the bank.
