'자기만의 길을 간다'는 생각은 허구인 경우가 많다. 알고 보면 새로운 게 별로 없고, 많은 사람들이 비슷한 선택을 하는 데에는 이유가 있다. 보수적인 선택을 하는 것이 더 낫고 안전하다.

- The idea of "going one's own way" is a myth. People say there is nothing new under the sun, and it's quite true. There are reasons why people go with the flow. In the end, being conservative with your choices is safer and better.
- There is nothing wrong with the rat race. You need to stay in your lane and think about your future. All the ideas have been thought of, and splitting off from the herd is a bad idea. Doing what you want is idealistic but not practical.
- Creating your own path in life will lead you nowhere. There is nothing out there to experience, and it is better to focus your attention on what others are doing to survive in this society. Fitting in is better than dropping out.

현대 사회에선 독창성을 가장 중시한다. 다른 사람 신경쓰지 말고 자신만의 방식을 찾아야 한다. 처음에는 힘들겠지만 나만의 길을 고수하면 결국 보상을 받게 된다.

- We're living in a world where creativity is valued the most. Don't pay attention to what other people are doing and just go your own way. It may look difficult first, but if you choose your own way and stick to it, your efforts will pay off.
- Creativity is driving the world today. Don't listen to haters and create your own destiny. It's a long road, but, with hard work and determination, you will be successful.
- Taking the road less travelled is necessary these days because being different is important. Thinking outside the box and exploring new avenues of success is the only way to survive in this fast-changing world.
